EPA-RedandBonitaMine-county land use permit application 6-17-15.docx
Red and Bonita RV - SAP - Figures.pdf

Bob,

In response to your questions, here is some additional information and the attached figures:

1. Figures attached – this includes a figure for the Gold King mine site work.
2. Operations will be conducted from 0700 to 1730 most days. (possible later hours when required.)
3. Crew sizes:
 - a. Red and Bonita : Environmental Restoration – 5 to 6 people (3 trucks), Weston 2 person (1 or 2 vehicles), Mining Environmental Services – 3 people (2 trucks). EPA and/or CO DRMS – 1 or 2 people (1 or 2 SUVs)
 - b. Gold King: Same as above except, Harrison Western Construction Group will have 3 people (1 or 2 Pick-up trucks)
4. Staging equipment / materials areas: Gladstone area for equipment drops with Low-boy trailers, supplies and possible materials. Heavy equipment will track up to the sites on mob and demob days; front-end loaders will be required to transport supplies/materials as needed between staging and work site.
5. Cement truck transports (5) required on one day – on or about September 1 (TBD) to the base of the Red and Bonita. (Noted in application previously.)

In addition, I have included a corrected land use application form; the previous version contained incorrect dates for a portion of the work.

Sincerely,

Steve

Subject: RE: EPA Work - Red and Bonita / Gold King mines: Land Use Permit Information

Hi Steve,

Thank you for providing the land use applications for the work at the Gold King and Red/Bonita this July. The information provided is useful. A couple of questions:

- 1) Do you have Site Maps that identify the two (2) sites and work area boundaries?
- 2) Anticipated hours of operation ("x" days/week between ___am-___pm).
- 3) How large are the work crews/number of vehicles?
- 4) Any large/oversize vehicles and/or staging areas required?

I will prepare the Land Use Permits after July 4th in time for the proposed scope of work to begin.

Let men know if you have any questions and I will do the same.

Thank you, Steve. We look forward to working with you on the successful completion of these projects in San Juan County.

Regards,

Bob

Subject: EPA Work - Red and Bonita / Gold King mines: Land Use Permit Information

Hello Bob,

Attached are the two land use permit forms completed for this year's work. Please let me know if you have questions or require additional information. Also, I will be in town next week if you would like to meet.

Sincerely,

Steve
